■ Duel Duo Test Plan and Review

in list Test Plan

Description Edit

Perform testing on Duel Duo webpage

Workflow:

- Clone / download project
- Run 'npm install' in root directory of project to install dependencies
- Run 'nodemon server/index.js' from root directory of project to run server
- Navigate to 'http://localhost:3000' in web browser

Environment:

- Node.js
- Nodemon
- Visual Studio Code
- Jest
- Web browser (Chrome and Safari) test with each
- MacOS Monterey 12.5.1
- Chrome 105

Page(s):

- index.html

Page elements:

- Button ('See all bots')
- Button ('Draw')
- Button ('Add to duo'), available once Button ('Draw') is pressed
- Button ('Duel!') once user clicks Button(s)('Add to duo') twice
- Button ('Play again!') once user clicks Button('Duel')

Endpoints:

- /
- /js

- /styles
- /api/robots
- /api/robots/five
- /api/duel
- /api/player

Data:

- data.js (root of project) contains data for project
- data.js (array 'bots') read only
- data.js (object 'playerRecord') read/write

Review index.html

- test functionality of buttons
- test functions in client/index.js
- test functions in server.js

Test criteria:

- User clicks Button ('See all bots'), objects from 'bots' array are displayed
- User clicks Button ('Draw'), computer player draws random bots, player is given choice of 5 bots
- User clicks Button ('Duel'), game is played, duo with highest stats wins, duo with lowest stats loses
- User clicks Button ('Play again'), page is refreshed and 'Player Record' is maintained

Entry Criteria:

- Test criteria provided
- Running version provided for testing
- Computer for testing

Exit Criteria:

- All high priority tests have passed
- The allotted time is up

Show details

■ Test case: Duel logic works correctly

in list Done

Description Edit

Test the logic of the game play, how a winner is decided, how a loser is decided. Do the results meet the expectations.

Steps

- 1. Navigate to http://localhost:300
- 2. Click on the 'Draw' button
- 3. Choose two bots using the 'Add to duo' button
- 4. Click on the 'Duel' button.
- 5. Review the logic of how a win and loss is calculated.
- 6. Do manual testing. Add player bot attacks together, add player bot healths together. Add computer bot attacks together, add computer bot healths together. Whichever player has the highest number in health and attack wins.

Test Postconditions

Logic works as expected.

Tim Sonner an hour ago

Tested and passed, environment Chrome 105, MacOS Monterey 12.5.1

C - Edit - Delete

■ Test case: Keeps score

in list Done

Description Edit

This test will verify that the app is keeping track of the player's score

Steps

- 1. Navigate to http://localhost:300
- 2. Click on the 'Draw' button
- 3. Choose two bots using the 'Add to duo' button
- 4. Click on the 'Duel' button first time through, and 'Play again' button on subsequent play throughs.
- 5. Play enough times to win at least once, and lose at least once

Test Postconditions

- The app should keep track of the number of player losses and wins
- The loss number or win number should be incremented according to a win or loss condition.

Show details

■ Test case: Shows all bots

in list Done

Start date

Aug 31 ✓

Description Edit

This test verifies a list of bots from the 'bots' array in data.js is displayed on the webpage.

Steps:

- Spin up server
- Navigate to http://localhost:3000
- Click Button ('See all bots')

Test post-conditions:

- Webpage should show a list of bots from the 'bots' array in data.js

Closed - Bug report: App not keeping track of score

in list **Bug Reports**

Description Edit

The app is not keeping track of the players score.

Steps

- 1. Navigate to http://localhost:300
- 2. Click on the 'Draw' button
- 3. Choose two bots using the 'Add to duo' button
- 4. Click on the 'Duel' button first time through, and 'Play again' button on subsequent play throughs.
- 5. Play enough times to win at least once, and lose at least once

Expected result

- The app should keep track of the number of player losses and wins
- The loss number or win number should be incremented according to a win or loss condition.

Actual result

· The wins are added to the loss counter

Environment

- Chrome version 105
- MacOS Monterey 12.5.1

Tim Sonner an hour ago

forgot to mention, but test environment was MacOS 12.5.1, Chrome 105

C - Edit - Delete

Tim Sonner Sep 5 at 4:31 PM

Changed win condition to increment playerRecord.wins. App works as expected. <u>Screen Shot 2022-09-05 at 4.28.21 PM.png</u>

C - Edit - Delete

Tim Sonner Sep 5 at 4:30 PM

Bug is caused in server.js, because in POST endpoint /api/duel, player record.losses is incremented on win condition.

C - Edit - Delete

Tim Sonner Sep 5 at 4:25 PM

Found bug in server.js Screen Shot 2022-09-05 at 4.24.47 PM.png

C - Edit - Delete

Tim Sonner Sep 5 at 4:09 PM

Actually seems like the app is adding the win to the loss variable. Will investigate.

C - Edit - Delete

Tim Sonner Sep 5 at 4:09 PM

Ran app, wining and losing each one time, score was not updated. <u>Screen Shot 2022-09-05 at 3.27.24 PM.png</u>

Closed - Bug Report: Clicking 'See all bots' button doesn't show all bots

in list **Bug Reports**

Description Edit

Clicking 'See all bots' button doesn't show all bots

Steps to Reproduce

- 1. Navigate to http://localhost:3000
- 2. Click 'Show all bots' button at top of page

Expected result

· All bots should be shown

Actual result

· Bots are not shown

Environment

- Chrome version 105
- · MacOS Monterey 12.5.1

Resolution:

Fixed bug, test passes. Screen Shot 2022-09-04 at 12.45.58 PM.png

Tim Sonner Sep 5 at 1:44 AM

Rerun test suite, test runs as expected.

🥴 - Edit - Delete

Tim Sonner Sep 5 at 1:43 AM

Removed the line in question from the test, unnecessary to import chromedriver as it's already installed locally. <u>Screen Shot 2022-09-04 at 10.43.32 PM.png</u>

C - Edit - Delete

Tim Sonner Sep 5 at 1:41 AM

Followed the error to line 4 of duelDuo.test.ts, found an import statement with incorrect syntax.

🥶 - Edit - Delete

Tim Sonner Sep 5 at 1:39 AM

Screen Shot 2022-09-04 at 10.39.59 PM.png This is the error when the test runs.

C - Edit - Delete

□ Closed - Issue: Show all bots button should toggle and should be reset on reload

in list **Bug Reports**

Show all bots button needs added behaviors like a toggle function when the button is clicked. Also, the shown bots should not be shown after reload, user should click show all bots to see them again

Steps

- 1. navigate to @ Duel Duo
- 2. click show all bots button multiple times
- 3. click deal
- 4. choose 2 bots using add to duo button
- 5. click duel button
- 6. click play again

Expected behavior

Bots should be hidden and shown with each press of show all bots button.

Bots list should not be shown after play again button is clicked, unless user clicks show all bots.

Actual behavior

Show all bots button is clicked and all bots are displayed until app is closed.

Environment

Chrome 105

MacOS Monterey 12.5.1
